TO : BI: Mr. Terry *WEC*
FROM : UNP: Mr. Cargo and S/AE: Mr. Breithut *POB*
SUBJECT: Biographic Data on Delegations to IAEA Conference

By memorandum of August 29, S/AE requested the Biographic Information Division to prepare biographic sketches of members of delegations to the Second General Conference of the International Atomic Energy Agency. Department Instruction CA-1121 had been sent out to our missions in Member States of the Agency on August 1, asking for information on composition of delegations.

Despite the relatively brief period of time available, the carefully prepared volumes of biographic data were sent by BI to Vienna where they were distributed to the members of the United States delegation on Monday morning prior to the beginning of the General Conference.

Liaison assignments were broken down among officers of the United States delegation, each having responsibility for contact with six or seven foreign delegations. Inquiry afterward established that the biographic sketches from BI were of great value in preparing the United States liaison officers for the contact work they were to do.

S/AE and UNP would like to express their appreciation for the prompt and comprehensive compilation of the biographic material, and feel that BI is to be commended for the excellent task it accomplished.
